

Dee Gregson | Supervising Location Manager

Dee Gregson is a Supervising Location Manager and Location Scout whose enquiring mind and boundless creativity are matched by strong logistical expertise and a collaborative spirit. With endless curiosity for exploring places and sneaking past 'Private Property' signs, she excels at finding unique environments that not only meet a production's practical needs but also heighten its vision. Across both feature films and high-end television, Dee has built a career defined by versatility and adaptability. Credits include period dramas such as *The Seven Dials* (2024) and *The Spanish Princess* (2020), as well as action-driven series like *Alex Rider* (2023). This breadth of work reflects her ability to balance creativity with precision planning, providing a smooth and happy shoot on projects of every scale.

Known for calm problem-solving under pressure and equally comfortable collaborating with directors, producers, and crews of all sizes, she builds a respected team which thrives on pressure and the shared excitement of bringing stories to life on screen.
